OF EMERGENCY SERVICES

SITUATION SUMMARY

POTUS Visit, San Francisco, San Francisco County

- President Obama arrived in San Francisco this afternoon and is expected to remain in the area until tomorrow afternoon.
- There are no activations or requests for State assistance related to this visit.

Weather of Concern

Northern California

- Showers have moved up from the south throughout the day today and will continue off-and-on through the weekend.
- The majority of rain will fall tonight and into Saturday afternoon, with snow levels above the major passes.

Southern California

- Two low pressure systems will bring a showery weather pattern through the weekend.
- A strong, unstable system will move in from the west late Saturday into Sunday will generate moderate to heavy showers and possible thunderstorms.
- Minor urban/small stream flooding and/or flash flooding could be possible late Saturday-Sunday.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

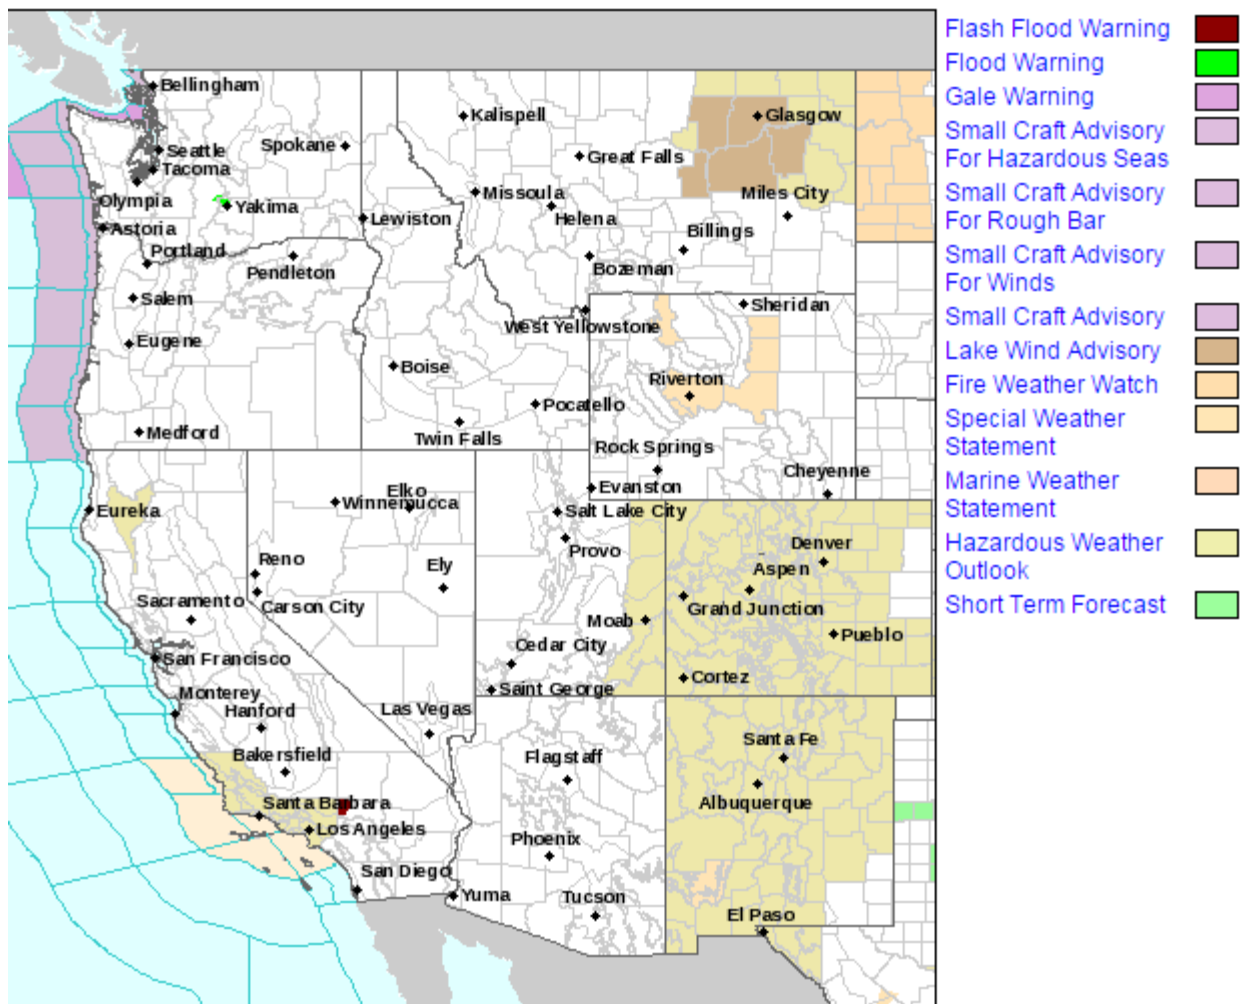

Low pressure west of California is pulling subtropical moisture northward over Southern and Central California and into north. Rain showers will continue spreading across Northern California today and tonight. Snow levels will be 7000-8000 feet. Showers and areas of steady continuous rain will continue Saturday through Monday, with snow levels above 6000 feet. After a brief break Monday night and early Tuesday, a much stronger Pacific low will be dropping south out of the Gulf of Alaska and into Northern California late Tuesday. This low will produce rain and rain showers through the end of the week and possibly beyond, with snow levels around 5000 feet. Rainfall totals over the 7-day period will be 1-3 inches in the mountains and 0.50-1.50 inches at lower elevations.

SOUTHERN CALIFORNIA

A batch of moisture will continue to lift northward today. Early this morning, most of the moisture is located over Southern California which is resulting in a few light showers. These showers are expected to be most numerous over the Sierras this afternoon where a tenth to a quarter of an inch of rain will fall. One or two thunderstorms will also be possible. The rest of the area will see mostly cloudy skies with temperatures running 5-10 degrees below normal. Saturday, a low pressure area will move through Southern California. With the atmospheric moisture already in place, the low will provide lift and instability, resulting in much more widespread precipitation. The main band of rain will likely move through the southern part of the state late Saturday afternoon through early Sunday. Rainfall will gradually taper off shortly after daybreak Sunday. Precipitation totals from this second round of rain will range from 0.50" – 1.50" of rain over Southern California with the heaviest rainfall occurring on south facing aspects. The central part of the state will see around a half inch of rain near the higher terrain. Scattered thunderstorms will also be a possibility due to cooler air aloft Saturday afternoon. Monday, a weak low may provide another quarter of an inch of rain along with gusty west winds in the deserts. Tuesday and Wednesday look dry and warmer as a weak ridge builds over the area. Long range models indicate another system may impact the region next Thursday. No offshore winds are expected the next 7-10 days.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
